

**ANDEAN
COMMITTEE FOR
THE PREVENTION
AND ATTENTION OF
DISASTERS**

COUNTRIES MEMBER

Bolivia

Colombia

Ecuador

Peru

COMMON RISKS OF THE SUBREGION

Earthquakes

Melting of glaciers

Volcanic eruptions

Droughts

Floods

COMMON GOALS

- ✓ Strength the institutionality of the disaster risk management in the region.
- ✓ Ensure the sustainable development of the disaster prevention in the region.
- ✓ Promote and propose possible initiatives to reduce the risk of disasters.
- ✓ Establish and strength technical cooperation links in order to improve risk management tools

OPERATIVE MECHANISMS OF THE ANDEAN COMMUNITY:

- 1. ANDEAN STRATEGY FOR DISASTER RISK MANAGEMENT 2017 -2030 (EAGRD), ELABORATED UNDER THE COMMITMENTS OF THE SENDAI FRAMEWORK**
- 2. OPERATIONAL GUIDE FOR MUTUAL ASSISTANCE TO FACE DISASTERS OF THE MEMBERS COUNTRIES OF THE ANDEAN COMMUNITY (IN PROCESS OF UPDATE)**

1. ANDEAN STRATEGY FOR DISASTER RISK MANAGEMENT 2017 -2030 (EAGRD)

- ✓ Promote the process of knowledge of disaster risk in all sectors of the Andean Region.
- ✓ Strength the governance of disaster risk at the national and subregional levels
- ✓ Strength public and private investment aimed to reduce risk and manage disasters in the Andean Region through the application of structural and non-structural actions.
- ✓ Increase the preparation actions to implement in case of disaster, this in order to have an effective response and "rebuild better" in the field of rehabilitation and reconstruction.

OPERATIVE PLAN 2017 — 2030 OF THE ESTRATEGY

Targets:

- ✓ Define instruments oriented to viablize the implementation of actions destined assure the physical security of populations and the sustainability of investments in the region.
- ✓ Promote links of collaboration in order to face the climate change.

IMPLEMENTATION OF ACTIONS DESTINED TO ENSURE THE PHYSICAL SECURITY OF POPULATIONS AND THE SUSTAINABILITY OF INVESTMENTS IN THE TERRITORY.

- ✓ Increase the knowledge and understanding of the risks to which the region is exposed, including those related to the climatic and meteorological change.
- ✓ Develop the culture of disaster risk prevention since the beginning of the education of the population.
- ✓ Strengthen the technical capacities of the authorities at all levels of government.
- ✓ Planning of resilient cities.
- ✓ Develop and strengthen early alert systems.

2. OPERATIONAL GUIDE FOR MUTUAL ASSISTANCE TO FACE DISASTERS OF THE MEMBERS COUNTRIES OF THE ANDEAN COMMUNITY

Objectives:

- ✓ **Facilitate and support the implementation of the operational mechanisms to face disasters even before the declaration of emergency by the affected country, situation that could leads to the call for international assistance.**
- ✓ **Identify the national actors responsible for the coordination of humanitarian action.**
- ✓ **Define the type of requirements that should be included by the affected country in the request for the humanitarian international action.**

CLOSURE

The Andean Community recognize the importance of:

- ✓ Geospatial observation mechanisms in the process of knowledge and monitoring of the risks in the region, specifically those caused by floods and droughts.
- ✓ Complementarity between the early warning and the geospatial systems, considering that they allows to make anticipated decisions based on their images captured in real time.

In that sense, we express our commitment to help promote the use of geospatial tools in the region, and generate alliances that allow their development.

THANK YOU
